

Hard Cover Groove Press

FASTBIND PRESSOMATIC™

PRESSOMATIC™

Compact design

Safe and easy to use

Supports spine length up to 480 mm

Groove with automatic operation

The Fastbind Pressomatic™ is a completely new kind of product for creating high-quality grooves in hard cover books. The Pressomatic™ adds a touch of premium quality to any hard cover finishing job. Dramatically improve the appearance of all your hard cover books with Fastbind Pressomatic™.

Premium grooves in seconds

The Fastbind Pressomatic™ is an automated thermal press designed to make grooves quickly and easily. After a brief warm up period, the press is ready to go. Simply put your hard cover book into the press, push the button, and let the machine do the work. Your hard cover books get symmetrical, deep, smooth grooves that hold tight against the book block...every time.

With Pressomatic™, you can add grooves to hard cover books up to 40 mm thick. No adjustments are needed going from one thickness to another. The pressing height is easily adjustable.

The hot plate inside Pressomatic™ is situated deep inside the machine, keeping it safely away from the operator. And with its compact design, the Pressomatic™ fits easily onto most any table top

Hot knife groove pressing from two sides simultaneously

Complete casing-in solution

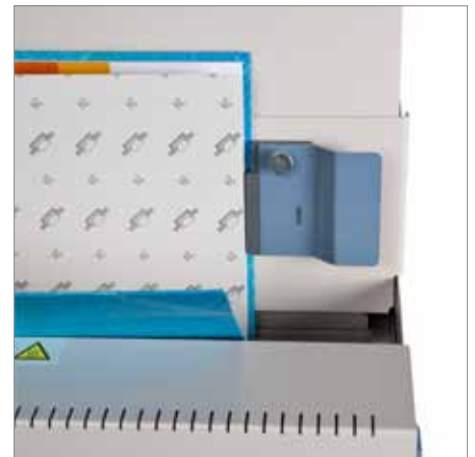

Fastbind offers a wide range of products to meet all your on-demand finishing needs. Fastbind Pressomatic™ is designed to work with Fastbind Casing-in Sheets to make hard cover books with any traditional perfect binder.

Easy and accurate casing-in with adjustable guide.

Compatible with Fastbind Casemakers™

Modern digital printing means you can personalize both book cover and content with the same variable cost and production speed as standard publishing. The demand for these kinds of books is growing fast. Personalized books carry an emotional value not found in standardized publications.

Once the cover is made, you can finish the book using a Fastbind Binding machine. Fastbind provides all the necessary materials and supplies to produce hard covers for the print-on-demand environment.
